

TPS/i ROBOTICS

- Powerdrive

MIG/
MAG

APPLICATIONS

- / Automotive and supply industry
- / General industry

EXCELLENT GAP-BRIDGING ABILITY USING THE PMC MIX DRIVE PROCESS

- / Enables clear weld rippling
- / Low heat input
- / Ideal for aluminium applications
- / Easy to join thick- and thin-gauge sheets

ALL MATERIALS CAN BE WELDED

- / Steel
- / CrNi
- / Aluminium

SAFE AND CONSTANT WIREFEEDING

- / Wire can be fed directly out of the wire drum
- / Robacta Drive positioned right in front of the torch body

QUICKER, TIME-SAVING TEACHING WITH TEACHMODE

- / Assists with robot teaching
- / No wire deformation during teaching
- / Keeps the stick out constant
